Capacity..... 5+1; 10+1  
Action..... Black Anodized Alum & Polymer  
Action Type..... Semi-Automatic  
Barrel..... Blued Steel

Magazine Type ..... Removable Box  
Stock..... Beech  
Trigger Pull Weight ..... 6.0 lbs.  
Warranty ..... Limited 5 Years  
Telephone..... (800) 955-4486  
Website..... www.CZ-USA.com

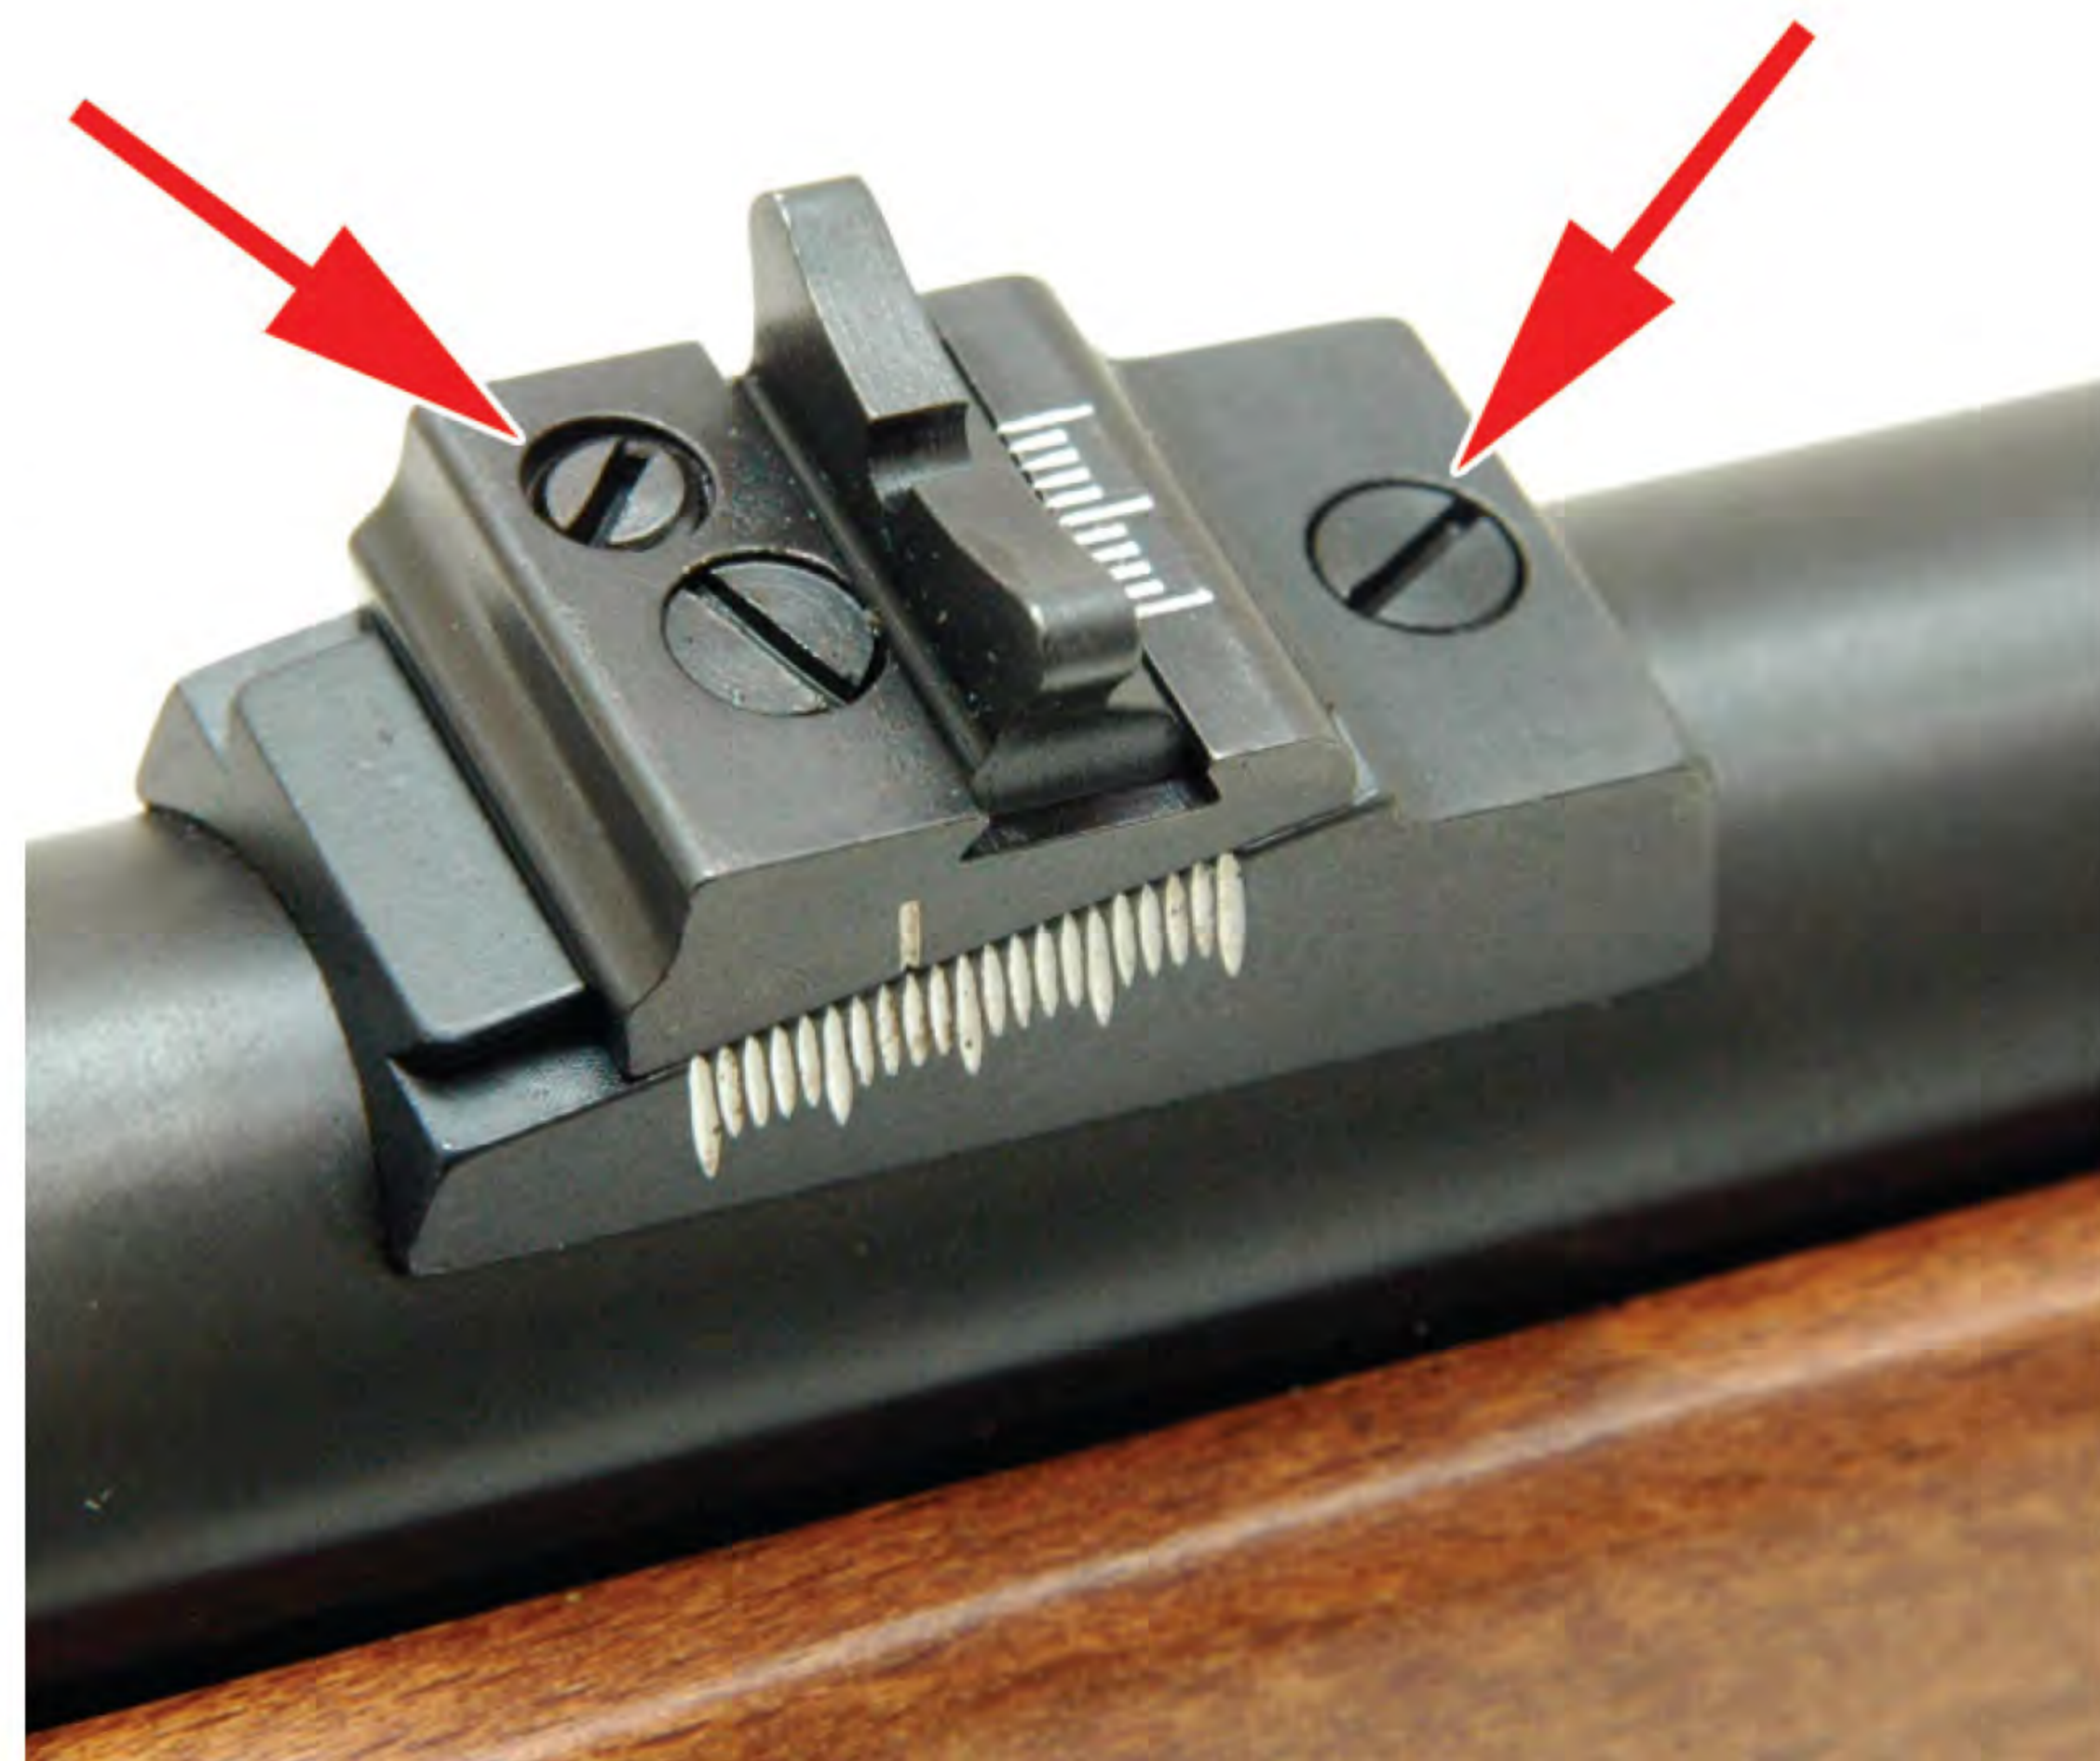

Shielded from glare by a hood, an undercut profile, and lines applied to the support stanchion, the front sight was adjustable for elevation. Once the set screw (arrow) was loosened, sliding it back and forth raised and lowered the sight blade.

**Only one plastic bodied 5-round mag (arrow) was supplied. But the 512 will operate with many vintage CZ 22 LR magazines for bolt actions or semi-autos.**

**The forward-mounted screw (right arrow) connected the rear sight unit to the barrel. The smaller screw to the rear (left arrow) held the sight blade in place for windage adjustment. The larger screw anchored the upper unit that rode up and down for changes in elevation. It came sighted in at 50 meters.**

**Left: The CZ's supplied steel magazines were impressive. The left-hand side of the rings (arrow) was scored top and bottom for precise application. The rings also provided a cost savings for the package.**
