

RUGER SR9C KSR9C/3313 9MM, \$525

GUN TESTS GRADE: A-

The trigger outshines that of the full-size SR9. This is a very good pistol, offering variable capacity and deep concealment.

SPECIFICATIONS

OVERALL LENGTH	6.9 IN.
BARREL LENGTH.....	3.5 IN.
SIGHT RADIUS.....	5.4 IN.
OVERALL HEIGHT.....	4.6/5.6 IN.
FRONT STRAP HEIGHT	1.5/2.5 IN.
BACK STRAP HEIGHT.....	2.6/3.5 IN.
WEIGHT UNLOADED.....	20.8 OZ.
WEIGHT LOADED (10 RDS, 124 GR.)	27.6 OZ.
WEIGHT LOADED (17 RDS, 124 GR.)	32.1 OZ.
CAPACITY	10+1/17+1

TRIGGER SPAN DOUBLE ACTION.....	2.7 IN.
WARRANTY	LIFETIME
TELEPHONE	(603) 863-3300
WEBSITE.....	WWW.RUGER-FIREARMS.COM

Right: After reaching into the breech and pressing down the ejector, takedown continued with pushing out the slide stop pin from right to left.

You'll probably need a punch or at the least the end of an Allen wrench to push it free.

Right: The SR9C rear sight was windage adjustable by loosening the Allen screw atop the unit and driving it left or right. Elevation adjustment was simpler thanks to a click adjustable screw (arrow). Or you can install Laserlyte's fully adjustable laser unit with continuous dot and strobe (\$199 from www.laserlyte.com). When a company like Laserlyte commits to a specific pistol, you know the gun is popular.

Left: The SR9C shipped with a 17-round magazine and a removable collar to fill out the grip. This was actually an SR9 magazine, and the combination worked very well. The 10-round magazine could be used with either the flat base pad (left) or with the finger-groove base pad. This added room for the pinky but did not increase capacity.
