

**SPRINGFIELD ARMORY SOCOM 16 NO. AA9625  
7.62X51 NATO/308 WINCHESTER, \$1905**

**GUN TESTS GRADE: B+**

**Great fun to shoot. Standard 308 Win./7.62x51mm ammunition doesn't overmatch this rifle's granite-like construction. This may be the ultimate ranch rifle.**

Stock Drop @ Comb	2.0 in.		

**Shooting the Socom 16 with its steel buttplate was not as uncomfortable as one might think. But the \$52 rubber buttpad is a good upgrade.**

**Perhaps the most modern upgrade found on the Socom 16 was the front sight by XS featuring a self-illuminating tritium insert.**
